

Freed.

Your personal finance tracker — spending, investments, retirement & insights.

GETTING STARTED

1 Create your account

Open the app and tap Create one. Enter your email and a password (min. 6 characters). A confirmation email will be sent — click the link, then sign in.

2 Set your monthly income

On the Overview screen, tap the income figure (shows R 0 initially). Enter your take-home pay. Do this each month — income is tracked per month independently.

3 Set up spending categories

Go to Spending → Categories. Six default categories are pre-loaded. Tap any to edit the name, icon, colour and budget. Tap + Category to add your own. Setting a budget enables the progress bars.

4 Log your first expense

Tap + Add Expense on the Overview screen. Enter the amount, choose a category, add an optional note and confirm the date. It appears on the dashboard immediately.

5 Add investments and savings goals

Go to Wealth. Tap + Add under Investments (TFSA, RA, shares, property, crypto) and + Goal under Savings Goals (emergency fund, holiday, etc.). Enter current values and monthly contributions — these feed your net worth and insights.

6 Configure the retirement planner

Go to Retire. Enter your current age, target retirement age, monthly contribution, expected annual return %, current savings, and your freedom target (lump sum needed). The projected fund and growth chart update as you type.

THE FIVE SCREENS

Overview

Net worth, freedom progress bar, monthly spend vs income summary, 6-month bar chart, and categories showing spend this month.

Spending

Three tabs: Categories (add/edit/delete with budget progress), Transactions (full log for the month), and Budgets (remaining per category).

Wealth

Track investments by type, value and monthly contribution. Track savings goals with target, current amount and monthly contribution.

Retire

Compound interest calculator projecting your retirement fund with configurable age, return rate and target. Year-by-year growth chart.

Insights

Auto-generated observations: savings rate, over-budget categories, monthly balance, portfolio value and nearest savings goal.

THINGS TO KNOW

Navigate months

Use the arrows in the top bar to move between months. Income and expenses are tracked independently per month.

Delete a transaction

Tap any transaction in the Transactions tab and confirm the delete prompt.

Auto-save

Data saves to Supabase automatically within a second of any change. Sign in on another device and your data is there.

Install as an app

In Chrome on Android: menu → Add to Home Screen. On iOS in Safari: Share → Add to Home Screen.

Currency

All amounts are in ZAR (R). Values are stored as whole rand amounts.

Editing categories

Tap any category in the Spending → Categories tab to edit its name, icon, colour or budget, or to delete it.
